WHAT TO EXPECT?

Full-grain leather is sourced from the top cut of the hide, making it a very durable material that will develop a patina over time. Given that this material is sourced from real animals, it often features wrinkles, scarring, and even slight color variation that's unique to that specific animal, adding a touch of personalization to each piece. Teak is known for its durability and strength, and given that it's a natural material, grain pattern and color can vary slightly from piece to piece, offering each item a personalized touch. Keep in mind that consistent moisture can cause the woodgrain to raise. Teak also tends to expand and shrink with age and environmental changes, so you may notice hairline cracks appear in the wood as time passes.
