

SANDRA

FURSANDRASTFLA

MG005044

We search the globe for the best quality, weather-resistant materials the world has to offer. Each piece is handmade, never mass-produced, and built to withstand varied elements and temperatures.

Traditional Indian stool reimaged in concrete.

FINISH

Light Gray

BASE MATERIAL

Reconstituted Stone

DIMENSIONS

20"D x 18"H

WEIGHT

43.000 lbs

SEAT WIDTH

20"

SEAT DEPTH

20"

SEAT HEIGHT (NO CUSHION)

18"

SEAT WEIGHT CAPACITY

231 lbs

OUTDOOR SUITABLE

Yes (Not Suitable for Freezing Temp)

VARIATION TO BE EXPECTED

Yes

WHAT TO EXPECT?

Reconstituted stone is a composite material made from—but not limited to—crushed natural stone mixed with resin, cement, or polymer to create a durable material that's used for some of our most well-loved designs. Keep in mind that small chips, cracks, and changes in color are expected over time and inherent to the charm of this material. In fact, it's part of why we love designing with reconstituted stone; each piece evolves with us. To avoid undesired changes to the finish, it's best to protect this material from the elements. You can also refer to our care guide for further instructions.
