WHAT TO EXPECT?

Chosen to add a touch of organic-inspired elegance, faux horn's appearance can vary. While seaming is common, minor cracks may occur at the joints, and minor flaking can appear over time, this material is a favorite in our catalog for the charm it brings each piece. Keep in mind that pieces made with this material are best for indoor-use, as excessive moisture can cause cracking and lifting, and changes in light and the environment can impact how the color is perceived. Additionally, you might see light scratches and/or haziness in the finish, which is normal and expected from piece to piece.
