Gilles Drink Table

DESCRIPTION

An evolution of the original Gilles Side Table, the Gilles Drink Table brings its sculptural presence to a more intimate scale. Its hand-carved silhouette and textured surface reveal the mark of the maker-organic, imperfect, deeply tactile. Rendered in a new finish that accentuates its stone-like form, Gilles captures the essence of functional sculpture. The smallest tables hold the largest truths: the glass offered, the silence between words, the conversation that rewrites a life.
