An abundance of brass grommets give this tailored piece a decorative edge. Full-grain aged camel leather covers the spiral orb web shape of the Hume. Large studs lining the perimeter define each piece of the frame, creating a warm and casual mirror. Natural variations in this material may occur. Slight differences in color and texture are characteristics of this collection's aged full-grain leather. This durable, high quality leather may show inherent markings, distressed appearance, and variations in pattern.

WHAT TO EXPECT?

Full-grain leather is sourced from the top cut of the hide, making it a very durable material that will develop a patina over time. Given that this material is sourced from real animals, it often features wrinkles, scarring, and even slight color variation that's unique to that specific animal, adding a touch of personalization to each piece.

Our mirrors are designed to be hung by a professional, usually by wire. Actual hanging specifics vary on a case by case basis and depend on several variables, including the mirror weight and wall type. Incorrect hanging can result in damage to the mirror or the wall. Made Goods is not responsible for damage due to incorrect hanging of our pieces.
