

## ISLA GAME TABLE

FURISLAGTBSMK

MG056855

The Isla is an inviting expanse of tightly woven peeled rattan atop four tall shapely legs. A glass tabletop exposes the beautiful rattan pattern underneath. Made from peeled rattan with a smooth texture. Sourced from a climbing palm tree mostly found in Southeast Asia, no two strands are exactly alike. Natural variations in color and weaves are to be expected in each piece.

### WHAT TO EXPECT?

Rattan is typically harvested from rattan palms, which grow in tropical regions, and the appearance and texture can vary depending on the environment. For example, whether the season was more dry or wet than usual can impact its natural color, and the time of year it's harvested can affect how it absorbs color. Some might even include small marks of darker shades, leaving each piece with a subtle sense of individuality. These types of variation are why we love utilizing natural materials for our designs; they offer each piece its own hint of character.
