Clear

CHAIN LENGTH

43"

SHORTEST DROP

22.5"

MAX DROP

66"

VARIATION TO BE EXPECTED

Yes

OUTDOOR SUITABLE

Not Outdoor Suitable

WHAT TO EXPECT?

Rattan is typically harvested from rattan palms, which grow in tropical regions, and the appearance and texture can vary depending on the environment. For example, whether the season was more dry or wet than usual can impact its natural color, and the time of year it's harvested can affect how it absorbs color. Some might even include small marks of darker shades, leaving each piece with a subtle sense of individuality. These types of variation are why we love utilizing natural materials for our designs; they offer each piece its own hint of character. Metal offers every space a touch of elegance. However, harsh chemical solvents, abrasive cleaners, strong detergents, bleach, and furniture polish can damage the finish. It's also best to avoid scratching and excessive humidity whenever possible, as this may cause the metal to rust.
